I Terry Scott Griffin will start in my expressing that the current state that I would be in if the situation was vise versa and the system that is supposed to serve all americans without bias, elected to protect rights of the citizens by enforcing penalty on those who violate those rights were the victims targeted for what is the most cruel and inconsiderate form of a type of torture not yet experienced by another soul but only if I the one that masterminded the entire scheme (vise versa your side is already calling it every name and law broke in the book, remember this as it shows character and is a variable of the torture) got caught red handed. Not during the execution of the deal but later while acting like a kid in a candy store but the candy is assets and to get them you just file with the SEC, Oh not forgetting the continued offenses depriving the tool that was the absolute key to the entire fraud, (excuse me, scheme) anything but the continued plans but with what all criminals do which is make it worse trying to get away with it. Now in this state of positions vise versa, there is a great and exact word to describe the status in a legal sworn under oath setting, You would have me Check Mate as Chess puts it. vise versa you know how to speak and you hold a stack of documents that is a lawyers dream or worst nightmare. Being as I am without ability to abuse power and havnt the largest network of conspirators causing inevitable conflict of interest not just amongst our nation but globally as how many included countries also conspiring to commit is needed to tip probability of receiving unfair trial for justice. See it doesnt even have the possibility of being displayed with the roles switched. This is only possible due to a major abuse of power. You must not hear but know that It Is Without A doubt a mistake to not just ignore but to purposely take the rights of someone that hadnt set out nor deserved to have his life completely compromised, damages worsening as time goes on, his extreme efforts to be heard. For I am only of one intent and it wasnt of my choosing but whom has chose me for a message is provable by the facts that are right in front of you behind the greed and lies. If you would tell our leaders to stop and look at the truth of the global events that were executed so very much threw the use of a single entity that you would be right to think would have non way possible of being of a concern as to thinking anything was not exactly as it was perfectly played out to be. That is because professionals in a number too large to calculate all know their role in the play or plan, it is impossible without the presents of two components for me to have completely caught you red handed. First component being wrong to a new degree cast amongst the wrong person giving history of having lost his middle brother and being youngest of three will not allow my parents accomplishment of a son that need not be worried about after they are gone be taken absent one action that was of my own. The second being if you would let me tell the events that are acts id God you would be astonished at the greater value that he wants the world to know. It is measurable scientific proof. First you have to let me have my position that I was used for and the one insecured by means of invalidating the debt used as said collateral that reasons for invalidation immediately forfeit ownership subject property to the victim without a thing to do with restitution. Just above all else remember that i didnt use the names of crimes as i know those that have done this would. And also know that i am aware of the not invasion but complete loss of privacy. The only thing that I prefer not to disclose would have been out of our lives years ago had I not been put in to a predestined pit of hell and loss. if you cant gather and agree to the resolution of what will be made known to the public especially in the unfortunate event that something happens to me, there is no way to stop the safe guards in place with well understood instructions that will show the people what you have done and if we cant finally give me the restitution and job of my choosing along with free education then lets just throw the truth all on the table. my whole one choice that is a damage to me for your interference with my life against a growing depository of crimes and contributors that it will show is the end of the declaration of rights. "When a long train of abuses and usurpations, pursuing invariably the same object evinces a design to reduce then under absolute Despotism, it is their right, it is their duty, to throw off such Government, and to provide new Guards for their future security. Please tell me the docket number to intervene for all the subject having to do with this duke energy property and forthill gas that state anything that is in relation to the wrongfully managed that wouldnt have been absent myself and the life sacrificed against will. thanks you truly for trying to read a long declaration of truth and title of principal to alleviate need for proxies in the matter of

2018-3-E and the attempts to allow Dominion to do my job acting as accounting. its is time to move foward based on truth and give me a limitless credit line and let me feed all these starving people
